

**Sale Name:** Superior Animal Brokers Fall Classic Taxidermy Auction  
**LOT 372 - Interior Grizzly Bear Full Body Taxidermy Mount in Habitat**

## Description

This Grizzly has its long hair winter coat. He is climbing up the Mountain looking for food. This Bear is clean and in excellent condition. Please forgive to poor photography, but we are just too crowded here. The Grizzly has no rubs and we believe this was a late fall Bear. The taxidermy quality is also excellent and this mount grades a high 9.5. This is an average size Grizzly that would have squared in the field a 6 to 6 1/2 feet.

**Quantity: 1**
