LOT 257 - African Southern White Rhino with Real Skin & Horns Shoulder Mount
Taxidermy **TEXAS RESIDENTS ONLY!**

Description

This mount was expertly done using the real skin and horns. The Rhino was harvested in the Republic of South Africa a few years back. This is an average size mature Bull. The mount is clean and in excellent condition with level 10 taxidermy quality. These mounts are very hard to come by. This full shoulder mount is surprisingly lightweight.
